

Job Description: Site Manager

 *Various locations across the U.S. & Canada*

 *Full-time | Travel Required*

 *Installations | Supervision | Leadership*

Ready to lead high-impact installation projects across North America?

Join **BITO Storage Solutions** as a **Site Manager** — the boots-on-the-ground leader who ensures our storage systems are installed with precision, professionalism, and pride.

What You'll Do

- Run the show on-site: supervise crews, coordinate schedules, and manage day-to-day activities.
- Be the main contact between BITO, installers, and the customer — ensuring a smooth, transparent workflow.
- Oversee deliveries, check materials, track progress, and solve problems fast.
- Maintain quality and safety on site — we work to high standards and expect you to uphold them.
- Use tools like SharePoint and DWG TrueView to keep things documented and on track.

What You Bring

- Experience in site supervision or construction leadership.
- Strong ability to read blueprints and lead diverse teams.
- Solid technical and organizational skills — you're detail-driven and proactive.
- Certifications: OSHA 30, First Aid, Forklift & Scissor Lift (or willing to obtain).
- Willingness to travel frequently and work hands-on in dynamic environments.

Why BITO?

At BITO, we don't just build systems — we deliver smart, scalable solutions. You'll get hands-on with exciting projects, work with international teams, and grow your skills through top-tier training in the U.S. and Europe.

Take the lead. Travel. Build. Grow.

Apply today and be part of BITO's expanding success in North America.
